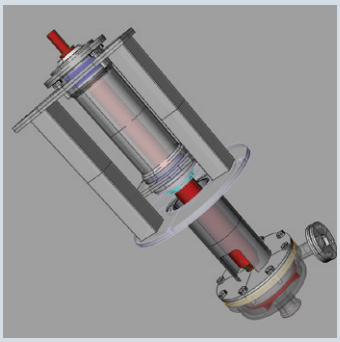
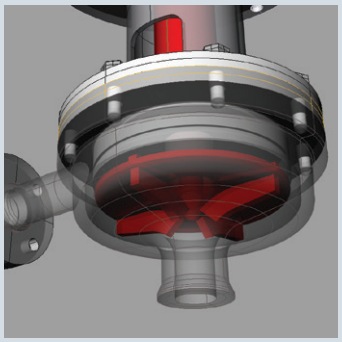
SLURRY-BUSTA

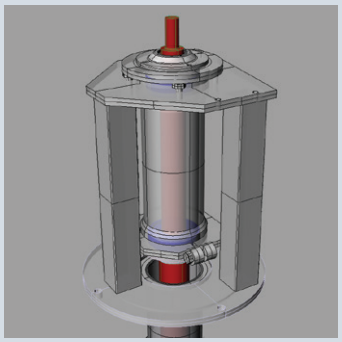
DAIRY / PIG SLURRY PUMPS

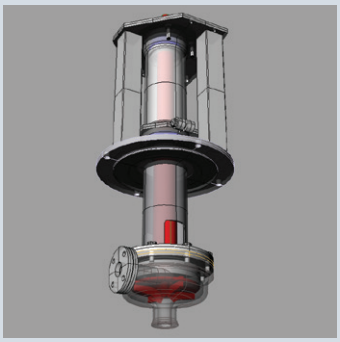
LAKESIDE EQUIPMENT

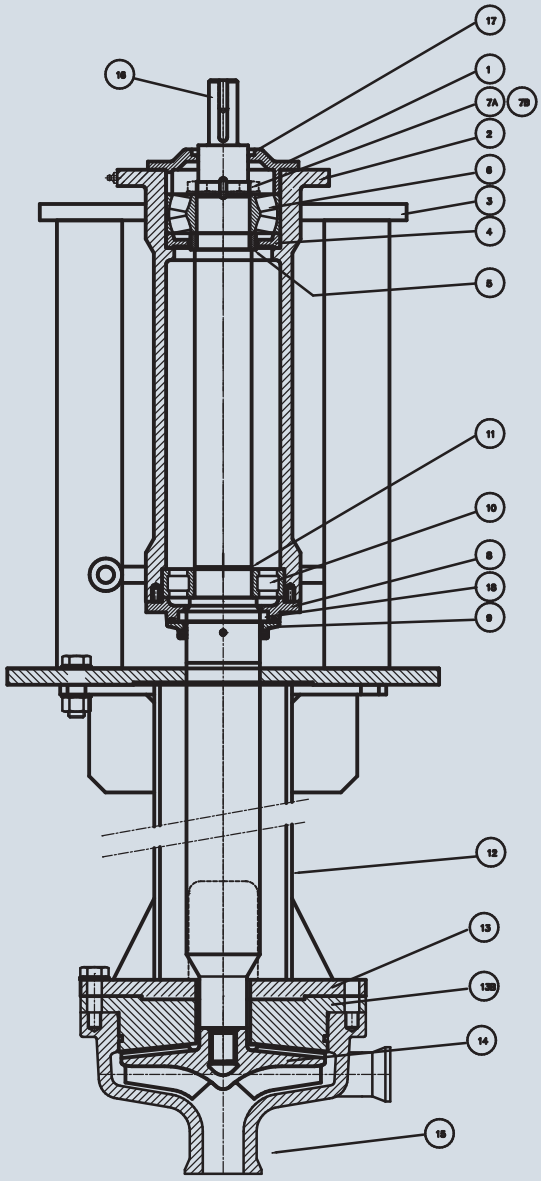
The Slurry-Busta is a vertical cantilever design pump for use in sumps and slurry dams. It has a wide range of performance capabilities, speeds and motor sizes to meet customer requirements.











SLURRY-BUSTA FEATURES

- Cantilever vertical design with no submerged bearings or seals
- Grease lubricated bearings
- Ability to run dry indefinitely
- Flooded wet end i.e. no priming necessary
- Adjustment for wear
- Head capabilities to 90(m)
- Semi-open impeller
- Solids handling capability of up to 15mm
- Choice of material: Cast Iron / wear resistant Hard Chrome
- Component life extended by wear adjustment feature
- Locally manufactured ensuring spares and service availability
- Mechanically designed to ensure reliable rugged service
- V-Belt driven which allows for easy speed adjustment

Optional:

- Frame material: Mild Steel or Stainless Steel
- Extended shaft for extended sump depths

1.	Cover / Lock	10.	Bearing NU314
2.	Bearing Housing	11.	Circlip
3.	Top Frame Assembly	12.	Lower Frame Assembly
4.	Spacer	13A.	Casing Cover
5.	Spacer Ring	13B.	Back Liner
6.	Bearing 22313C	14.	Impeller
7A.	KM13 Nut	15.	Volute Casing
7B.	MB13 Washer	16.	Shaft
8.	Labyrinth Cover	17.	Seal V60
9.	Sealing Ring	18.	Seal V90
